Dear Mr. Gronski, Mr. Kuffel, and the Geneseo Board of Education:

As a part of our Language Arts III research project and action plan, we are seeking permission to organize a community wide project to purchase and plant trees at the middle school and high school after raising money through GoFundMe.com and asking for donations around the community.

Our research project is about the effects of Global Warming in our world. A major factor that is harming the environment is greenhouse gases. When greenhouse gases are released, they tend to stick in the air creating varied temperatures and environmental changes. But, just planting one tree can absorb as much as forty eight pounds of carbon dioxide per year.

Therefore, we would like to take action by raising awareness about global warming. In order to complete this task, we would like to raise approximately five hundred dollars through GoFundMe.com and other ways of fundraising. With this money, we would like to purchase trees and organize an event on Earth Day, April 22, with volunteers to help plant the trees.

Please contact us at reece.bodeen@geneseoschools.org and reed.vanderheyden@geneseoschools.org with any questions that may help you make your decision in regards to our request.

Sincerely,
