**WELLNESS SUB-COMMITTEE MEETING
TUESDAY, OCTOBER 7, 2010 – 9:30 A.M.
GENESEO HIGH SCHOOL**

Present:

Deb Rokis, Head District Nurse; Michele Hepner, Food Service Director; Jack Schlindwein, Director of Operations

Board Policy 6:50 – School Wellness, which was approved by the Geneseo Board of Education on April 16, 2009, was reviewed by the members of this sub-committee. Nutrition and Physical Activity in the District were discussed. This sub-committee will be making no recommendations for any changes to this policy.

Board Policy 7:285 – Food Allergy Management Program – This sub-committee reviewed this policy, which has not been accepted and/or approved by the Geneseo CUSD #228 Board of Education. They felt that the way the policy was written by the 2010 Policy Reference Education Subscription Service – IASB is adequate for our District’s needs. This sub-committee recommends that this policy, as is, be presented to the Board of Education at their Oct. 14, 2010 Meeting for review, and then approval at the November 11, 2010 Board Meeting.

The Administrative Procedure that accompanies this policy (7:285-AP) is going to be reviewed by this sub-committee during the next two months. Making this procedure relevant to our District is the goal of this sub-committee.

A Food Allergy Management Committee will be incorporated into the Wellness Committee. At least one new parent, with an allergy “background,” will be asked to join the Wellness Committee, so their knowledge can supplement the group.

Nutrition:

Ms. Hepner reported that the District continues to follow the National School Lunch Programs Standards in all of our schools. Alternate lunches continue to be offered at all of the buildings. These alternate lunches meet National Standards also.

At an Administrators’ Meeting in May 2010, all of the building principals were given a copy of “Healthful Food and Beverage Options for School Functions.” This information was only a list of suggestions for future activities and events at the schools. It was noted that some people accepted this information willingly, and others were not pleased with it.

It was recommended that at the next Wellness Committee Meeting (February 2011) that a discussion take place regarding some of the fund raising products currently being sold in the District. One product, candy bars, is currently being sold during school time on school grounds. According to U.S.D.A. rules and regulations, this is unacceptable.

Nutrition Education continues in all of the classrooms in the District via the health education curriculum.

Physical Activity:

The District continues to align their physical education curriculum with those outlined in the Illinois Learning Standards. Physical education instruction takes place at the elementary level three (3) days per week and is taught by the P.E. teacher. Two (2) days a week the classroom instructor is responsible for the P.E. instruction. At the middle school and high school levels, P.E. is taught every day of the week.

Even with well-outlined nutrition and physical fitness programs existing in the District, Mrs. Rokis expressed some concerns about numerous students still being overweight and obese. At the last Wellness Committee Meeting, Mrs. Rokis shared with the group current information about the District's over weight and obesity issue. At the next meeting, she will give a similar update.

Mr. Schlindwein shared with the sub-committee that Northside Elementary is currently piloting a pedometer program in Grades 3, 4, and 5. All of the students are currently wearing a pedometer during school hours. Every day, the students record the number of steps they have taken. This program is being sponsored by the Northside P.T.A. Other healthy events are also being planned at the building, as fitness and wellness are the main themes of the building this school year.

Mr. Schlindwein also informed the group that a new District Committee has been formed: "Health and Community Committee". Their goal is to help our students and staff become more healthy and physically fit.

A Wellness Committee Meeting will be scheduled in late February 2011, with an update being presented to the Board of Education at the March 10, 2011 School Board Meeting.

Subject: **Blackhawk Division News**

November 2010

To: Governing Board Representatives, Blackhawk Division

CC: Superintendents, Division Officers

From: Dean Langdon, Director, IASB Field Services

RE: Blackhawk Division Update

Good day to board governing representatives across the Blackhawk Division. Recently, I asked boards across the division to select a Board Governing Representative for our Association. Thanks to all those members who have agreed to help us communicate more effectively to our member boards. In this first email, I have just a few reminders/announcements:

1. We had an outstanding Division Meeting at the **Riverdale School District** in Port Byron - thanks to our hosts for a wonderful meeting.
2. Our **Division Governing Meeting** will be held on Thursday, December 2nd at The Cellar in Geneseo. In an effort to reduce costs and become more "green", we will send our flyer via email to members and superintendents. You may want to mention this at your next board meeting. A fax reminder will also be sent. As always, you can register for this meeting at our website: www.iasb.com/. Approval of Division bylaws is on the agenda.
3. The Field Service group at IASB just sent out an **Internet survey** to get feedback on our services to Boards and Board Members. Please encourage your board colleagues to complete the survey! Anyone not in our email database is encouraged to call Lin Bremer at 630.629.3776 x1232 to participate.
4. The **Joint Annual Conference** is just around the corner. As always, there are over 100 sessions for your board development. Pre-conference workshops are filling up – register for those at: <http://www.iasb.com/jac10/precon.cfm>.
5. Our **Spring Blackhawk Division Meeting** will be held at the new **Rock Island Center for Math and Science** on March 23, 2011. We will have a **Candidate's Briefing** for any new school board candidates running in the April election. Please mark this on your calendar and invite any new candidates to attend with you.
