

Lego League Coach

Applicant Qualifications Include:

1. Desire to inspire and help students get excited about science, technology, and engineering.
2. Focus on the fundamentals of engineering as they explore real-world problems, learn to design, and code, and create unique solutions.
3. Prior experience in the fields of science, technology and/or engineering is preferable, but not required.
4. Willingness to lead a team.
5. Collaborate and work closely with other levels of Lego League and Robotics within Geneseo School District and external business partners such as John Deere.
6. Schedule must allow for after-school practices and weekend competitions within the season, September through January.
