***If a gift of a supply, material or equipment:*** TV50 / iTV50 / WB6network (\$147,000.00)  
for the purpose of

Donation of operational media broadcast entities and equipment to the Geneseo School District. This provides regional Mediacom Cable and streaming platforms to positively promote the Geneseo School District, schools and students to the broader community while reinforcing the connection with our community. Additionally, it provides unique technical learning opportunities for students, and revenue opportunities for Geneseo High School.  
  
This groundwork for this donation began in 2018. The donation / transision was completed in 2019 and 2020.

Tim,

Please accept this as formal acknowledgement that all things TV50, including all equipment assets, are now the property of Geneseo High School.

- Attached is an inventory of the donated TV50 equipment . There's also a significant amount of miscellaneous smaller items not included in the inventory. The donation is technically from my business Kentec, Inc. with a fair market value of \$147,000.00 If this could be treated as donations over two years that'd be helpful for our accounting ... a donation of \$73,500 from Kentec, Inc. in 2019, and donation of \$73,500 from Kentec, Inc. in 2020.
- As information items, \$3,200.00 was additionally donated by the Kennett family for miscellaneous transition costs related to equipment, studio improvements, software and EAS updates. Also, approximately 250 hours of my time was donated in the transition process and subsequent new / expanded operational requirements. Just noting these items in case donations of time and / or materials is something the district tracks or accounts for on specific projects. I continue to donate my time in the operations of TV50.
- Please allow me to give special recognition to James Roodhouse. This project had several unanticipated challenges and James helped enable workable solutions for all of them.

I'd be happy to provide a brief tour / overview of the new Geneseo High School Broadcast Operations Center to the school board, interested administration / staff, or anyone you think would be interested in such. We should all be proud of what's been accomplished. I believe this is a great asset for Geneseo High School, truly unique and with tremendous future potential.
