We will add to the agenda as an Action Item. Sounds great Curt

I have been asked to serve on the mapping committee in Colona. At the February 9th regular meeting, I would like the school board to officially accept me to be their representative for the Colona Mapping Committee. I think this would be a good opportunity for our district to be involved in Colona and what they are wanting to do to be apart of the mapping of the community and their involvement in the Illinois Institute of Rural Affairs. If not, I will just represent myself and the neighborhood.

I will be willing to provide any information that I can garner for our regular meeting on February 9th.

Please add this to the agenda.

Thanks.

Curt
