

Superintendent Report 12/6/24

Updates from around the district and the state.

1. Thursday, December 12, 2024 marks our 79th day of student attendance, with 6 school days remaining until Christmas break.
2. For the fifth year in a row, Geneseo Middle School is hosting a holiday gift drive in conjunction with the Geneseo Police Department that will benefit families in need throughout our school district. It began on Dec. 1 and through Dec. 9, those wishing to contribute can drop off items at GMS, GPD or Reap & Sow Nutrition (see graphic below).
3. There were a few sessions at the Triple I Conference that were of great interest to me and I made several new contacts to assist with some of our current initiatives. At the end of my report, you will find some of the handouts from the sessions I attended (not all sessions had handouts). We had 6 people attend our Carousel of Panels session where Tim, Joe Mowen, and I presented and made some new contacts. The smaller, more intimate sessions allowed us to dive deeper into specific questions the attendees had which made for some very rich discussions.
4. Attached to my report, you will find the final version of the new **Vision 2030** plan. I previously shared a draft version with you, but this is the final version that was introduced to the members who attended the Triple I Conference. I anticipate a resolution to be supplied by the IASB or IASA for boards to approve across the state locally in solidarity.
5. In case you missed it, the Illinois High School Association ranked Geneseo High School's football program at #10 in its list of the Top 50 IHSA Football Programs from 1974-2024. We had a story ready to go in conjunction with the announcement that featured comments from an All-American player who was on the 1976 championship team. [You can read it at GeneseoSchools.org](https://www.geneseoschools.org).
6. Also on GeneseoSchools.org, we highlighted the presentations made at November's BOE meeting with a look at [Geneseo High School's new course proposals](#) and the [social and emotional learning initiatives](#) that have been implemented at GHS.
7. Regarding certain agenda items, here is some additional, more specific information:
 - a. Special presentation on the IL School Report Card (Part I)
 - i. The board will receive information on the IL School Report Card from me and the board will identify which members will be a part of the committee that will be conducting a deep dive of the IL School Report Card and other key student achievement metrics, identifying areas for celebration and areas for growth.
