

Fine Arts Center Facility Annual Update  
June 14, 2018

The following is a summary of the activities that have taken place in the Theater and Concert Hall from November of 2017 to present.

Usage

- 25 Music or Theater performances.
- 79 Rehearsals for those performances.
- 4 professional development meetings for staff.
- 9 classroom extensions.
- 47 Special assemblies or gatherings.

The Fine Arts Center Facility Manager, Larry Lord has been responsible for all scheduled activities that have taken place in the Theater, Concert Hall and Fine Arts Commons area. Mr. Lord has implemented a schedule calendar specifically for the Performing Arts Center which is published on the District web site, he has also worked closely with the District Fine Arts Directors in arranging all student performances.

This year's spring musical, *The Little Mermaid*, was the first major production in the Theater and the first time all of the various technology was fully utilized. Mr. Lord worked closely with 15 student volunteers, training them on all the technology of stage and theater lighting, sound, and video to produce the most technically challenging production Geneseo High School has ever done.

Final contractor punch list items for the Fine Arts Center were closely monitored by Mr. Lord throughout the final construction phase. These items were extremely technical in nature and has allowed the District to fully utilize the functionality of both the Concert Hall and Theater.

Respectfully Submitted
