

## **S.A.F.E. RECOMMENDATION 2008-2009 SCHOOL YEAR**

After reviewing the projected number of S.A.F.E. students for the 2008-2009 school year with Mr. Kuffel and Mrs. Anderson, please review the following recommendation for site locations for the upcoming school year:

### Northside Elementary School

P.M. Session Only

Northside and St. Malachy students would attend S.A.F.E. at this location. Currently, we project 26 students for this time frame.

### Southwest Elementary School

Both A.M. and P.M. Sessions

Millikin and Southwest students would attend the P.M. session at Southwest. Currently, we project 43 students for this time frame.

Northside, St. Malachy, Millikin, and SW students would attend the A.M. session at Southwest. Students not attending SW would be transported to their respective schools in the morning. Currently, we project 36 students for this time frame.

The actual number of students attending each site will vary from day to day. By reducing the A.M. site location to one, and by not having any sessions at Atkinson, the program will be able to function in a more efficient and effective manner.
