Superintendent's Report (9.12.19) Updates From Around the State and the District

- 1. As the Board approves Policy 1:40 this month, I have attached a report from ISBE regarding their own progress towards reaching their goals for 2032. There is some interesting data in the report. I have also included our 5Essentials Survey data to compare to data relating to their goal of having a safe and caring environment for students and highly effective teachers. We are above the state average in both areas.
- 2. In a previous report, I mentioned that I am researching the topic of instructional coaches. To date, here are some of the activities we have participated in: 1.) We sent 9 teachers to an instructional coaching certification course; 2.) Mr. O'Dell, myself, and 4 middle school teachers attended a workshop on how to implement student-centered instructional coaching into your schools; 3.) The admin team is conducting a book study that focuses on the What, Why, and How of instructional coaching; 4.) In the coming weeks, I will be co-facilitating a book study for teachers on instructional coaching; and 5.) We are setting up several future site visits with districts who are seeing great results with instructional coaches and student growth. *This project is part of research-based discussions and professional development we have been having based on the work of John Hattie.
- 3. We are thankful to the city of Geneseo and Augustana College for allowing us to partner with them on the community survey they sent out this summer. The feedback from the survey questions asked on behalf of the district, were mostly favorable. You, the Board, and I have reviewed the comments suggestion areas as in need of improvement and we have outlined ways to improve those areas in the future.
- 4. Today already marks the 20th day of student attendance. Our 6th day enrollment was 2,510 for grades K-12. Historically, we had 2,610 students in the year 2010.
- 5. I want to commend Mr. Gronski, the district office staff, and all of the secretaries across the district for the outstanding audit that was just completed. Our financial profile increased from "Review" to "Recognition", the highest profile a district can receive. There were no major findings in the audit, which does not happen without great record keeping, proper practices, and attention to detail.

What is the Illinois educational landscape?

A brief data presentation will be provided during our meeting next week in order to prepare you for further conversation on 9/17.

Boiler Replacement Project Summer 2020

Seeking Board permission to continue to move forward with the legal process for the High School Boiler Replacement Project. With Board permission, our District Architect Scott Johnson will move forward with his process and begin to create the project design and prepare bid specs. All work will be done during the summer of 2020 if approved.

Stiffel is preparing financing options for the project. The likely scenario will be to issue "debt certificates" which will not impact the tax levy and are not subject to a petitioned referendum. Debt certificates will require Board approval.

In upcoming future Board meetings, before any work is performed, there will be recommendations for the Board to approve:

Financing Design/Work Scope Bids
